

Clearview Parkway Corridor/LA 3152 (part) Stage 0 Feasibility Study and Environmental Inventory State Project No. 736-36-0047 • Federal Aid Project No. PL-0011 (030)	BK1 BURK-KLEINPETER, INC. In association with RC Lambert Consultants, LLC, ALM5 Group, Inc., PSI/Citywide Testing & Inspection, Inc., Urban Systems Associates, Inc. B01 Project No. 10214-07/03 February 2008
Alternative #3 Overpass Concept at Intersection with Airline Drive (US Highway 61) Clearview Parkway (LA 3152 part)	

Overpass

Airline Drive over Clearview Parkway

• Pros

- No Environmental Site Concerns
- Compatible with long-range LANOIA-CBD rail corridor
- Construction under traffic possible
- Better impact on traffic operations at Clearview and Airline Drive intersection

- LOS E/F at Peak (2027)
- Reduced signal time
- Reduced delay
- Reduced queue length

• Cons

- Neighborhood access south of Airline Drive slightly modified
- Some displacements may occur in southwest corner of intersection (final number to be determined)

• Construction Cost (est)

- \$30,500,000*

* - Order of Magnitude Cost for Construction, plus Engineering, Construction Administration, Testing, Right-of-Way
