Obligated Projects, transportation, FHWA, Regional Planning Commission

Summary

This layer illustrates transportation projects financed in part by the Federal Highway Administration (FHWA) funding sources and FHWA-approved between the Federal Fiscal Year 2024 (FY24 defined as occurring between calendar dates of October 1, 2023 and September 30, 2024) within the Regional Planning Commission (RPC) Metropolitan Planning Areas (MPA) of Mandeville-Covington, New Orleans, Slidell, and South Tangipahoa. This layer was created as an additional product for the RPC annual Obligated Projects reporting process.

Description

The FAST Act (23 CFR 45.334) requires that MPOs, in coordination with the state and public transportation operators, annually develop a listing of projects for which federal transportation funds were obligated in the preceding program year. An obligation refers to the funding commitment made by the federal grantor agency (Federal Highway Administration [FHWA] or Federal Transit Administration [FTA]) to pay the federal share of a project's capital or operating cost. The RPC has worked cooperatively with the Louisiana Department of Transportation and Development (LA DOTD) in preparing the Annual Listings for each of the four UZAs housed at the RPC for Federal Fiscal Year 2024. This layer includes projects obligated from October 1, 2023 to September 30, 2024 and are organized by UZA, parish, and state project number. For each project, the following information is provided: a brief description of the project (e.g., pedestrian path, overlay, reconstruction, etc.), project sponsor, bid letting date, federal funding source, total cost, funds programmed in the TIP, and federal funds obligated. This layer illustrates the location of highway transportation projects with funding obligated (approved for spending) for the Federal Fiscal Year 2024 (FY24) and was created as an additional product for the RPC annual Obligated Projects reporting process. It should also be noted, this layer does not represent all of the obligated funding federally-approved for FY24. Projects that were not mapped include project types such as lane-painting, signage installation, and/or unknown location projects.
